

References for Scholl letter: Vote NO on Proposition 14

References for Morally Unethical

For my part, I took my information from the amended Prop. 14 section calling for the amendment of the Health and Safety Code section 125292-10 in the California Constitution: (b) “adult stem cell” and (s) “pluripotent cells.” According to the definitions, the morally derived induced pluripotent cells will be called “adult stem cells” and only the immorally produced embryonic stem cells (from cloning and IVF “surplus products” will be called “pluripotent cells.” This hides the fact that the pluripotent cells that actually have led to cures are “adult stem cells” that have been induced to act like the unethically produced embryonic stem cells...and locks into the Constitution the funding of the unethically produced ones. From the print out of the amended proposition, I’m looking at pages 31-33.
